PUBLIC NOTICE

Pursuant to the Wyoming Administrative Procedure Act and the Wyoming Public Service Commission's (Commission) Rules, notice is hereby given of the Application of Rocky Mountain Power (RMP or the Company) for authority to revise Rule 12 to limit the Line Extension Allowance for certain large load customers, as more fully described below:

- RMP is a division of PacifiCorp, an Oregon corporation, engaged in the business of supplying electric utility service to customers in its service territory consisting of parts of six states, including Wyoming. RMP is a public utility, subject to the Commission's jurisdiction. Wyo. Stat. §§ 37-1-101(a)(vi)(C) and 37-2-112.
- On August 17, 2023, the Company filed an Application requesting authority to revise Rule 12 to limit the Line Extension Allowance for certain large load customers.

3. Specifically, RMP seeks authority to limit the Line Extension Allowance to the cost of required metering equipment for customers requesting service greater than 25,000 kVA and delivery at less than 46 kV, effective December 1, 2023, or sooner. Under the current Rule 12, customers requesting loads greater than 1,000 kVA and delivery at less than 46 kV have an Extension Allowance equal to the estimated annual revenue paid to RMP. Large load customers requesting delivery greater than 46 kV have an Extension Allowance equal to the metering equipment.

4. The Application states large upfront capital investments for infrastructure are necessary to provide service and for RMP to meet its requirements as a utility provider to its large load customers. To reduce the risk to existing customers of incurring the costs of infrastructure and equipment that only benefits the requesting large load customer, these changes are being requested. Large load customer requirements and responsibilities, including the purchase and operation of sole use equipment and the costs associated with installation, are detailed in the Application.

5. This is not a complete description of RMP's Application. Interested persons may inspect the Application at RMP's Wyoming offices or on their website at: <https://www.rockymountainpower.net/about/rates-regulation/wyoming-regulatory-filings.html>. The Application may also be viewed at the Commission's office, or online at: <https://dms.wyo.gov/external/publicusers.aspx> (enter Record No. 17399).

6. Anyone desiring to file a public comment, statement, protest, intervention petition or request for a public hearing in this matter must do so, in writing, to the Commission on or before September 22, 2023. Any intervention request shall set forth the grounds of the proposed intervention or request for hearing as well as the position and the interest of the petitioner in this proceeding.

7. If you wish to intervene in this matter or request a public hearing that you will attend, and you require reasonable accommodation for a disability, please contact the Commission at (307) 777-7427, or write to the Commission, 2515 Warren Avenue, Suite 300, Cheyenne, Wyoming 82002. Communications-impaired persons may contact the Commission through Wyoming Relay at 711. Please mention Docket No. 20000-649-ET-23 in your communications.
