

PUBLIC NOTICE

Pursuant to the Wyoming Administrative Procedure Act and the Wyoming Public Service Commission’s (Commission) Rules, the Commission hereby gives notice of the Application of Rocky Mountain Power (RMP or the Company) for authority to revise tariff Schedule 37, the Standard Rates for Avoided Cost Purchases of Power from Qualifying Facilities (Schedule 37), and Schedule 38, the Avoided Cost Purchases from Non-Standard Qualifying Facilities (Schedule 38), as more fully described below.

1. RMP is a division of PacifiCorp, an Oregon corporation, engaged in the business of supplying electric utility service to customers throughout its six-state service territory, including Wyoming. RMP is a public utility subject to the Commission’s jurisdiction. Wyo. Stat. §§ 37-1-101(a)(vi)(C) and 37-2-112.

2. On June 30, 2025, RMP filed its Application requesting authority to revise the methodology used in tariff Schedule 37 and Schedule 38 to align with the Federal Energy Regulatory Commission’s (FERC) 2020 Public Utilities Regulatory Policies Act (PURPA) revisions, which address the risks of forecasted avoided energy and capacity costs. Specifically, RMP seeks to require locational marginal pricing (LMP) using Wyoming WEIM nodal information for non-firm energy purchases, to modify the current Partial Displacement Differential Revenue Requirement (PDDRR) methodology for firm energy purchases to incorporate the 2025 IRP, to reflect third-party ownership of proxy resources, and conform clerical and formatting edits to Schedule 37. No clerical edits are proposed to Schedule 38.

3. Under the proposed PDDRR methodology, pricing for non-firm energy purchases, is based on relevant WEIM Fifteen Minute Market (FMM) pricing at the Qualifying Facility’s (QF) delivery point, or a nearby resource if the QF is not modeled by CAISO. To reduce administrative complexity, RMP proposes prices be based on hourly deliveries and simple average of the four FMM prices. Under the proposal, published integration costs for Schedule 37 will be subtracted from WEIM pricing results for wind and solar QF’s for non-firm pricing for Schedules 37 and 38.

4. Pricing for firm purchases under Schedule 37 for baseload, wind, fixed-tilt and tracking solar resource QFs, over a fifteen year contract starting in 2027 are shown in Table 1. No LMP pricing for firm energy purchases under Schedule 37 or 38 is proposed at this time.

Table 1: Summary of Schedule 37 Avoided Cost Prices

\$/MWh	Proposed	Current	Change
Base Load	\$34.17	\$43.14	(\$8.96)
Wind	\$14.37	\$42.81	(\$28.44)
Fixed-Tilt Solar	\$14.86	\$38.59	(\$23.73)
Tracking Solar	\$16.68	\$42.66	(\$25.98)

5. The Company states that the PDDRR updates are driven by portfolio changes including reductions in the number of retirements of coal-fired resources, as well as significant increases in wind, solar and energy storage resources since the prior PDDRR update. Additionally, the Company states wind and solar QF prices are lower primarily as a result of proxy resource characteristics, specifically lower construction costs, higher tax credit eligibility and higher tax credit eligibility than was assumed in current rates.

6. This is not a complete description of the Application. The complete Application is available at the Commission’s offices or online at <https://dms.wyo.gov/external/publicusers.aspx> (Enter Record No. 17882), or RMP’s website at [www.pacificorp.com](http://www.pacificorp.com).

7. Anyone desiring to file a statement, intervention petition, protest, or request for a hearing must do so in writing, on or before August 25, 2025. Public comments should be submitted to [wpse\\_comments@wyo.gov](mailto:wpse_comments@wyo.gov). Any intervention request filed with the Commission must set forth the grounds of the proposed intervention or request for hearing as well as the position and the interest of the petitioner in this proceeding. Please be sure to mention Docket No. 20000-687-ET-25 in all correspondence with the Commission.

8. If you wish to participate in this matter and require reasonable accommodation for a disability, please contact the Commission at (307) 777-7427, or 2515 Warren Avenue, Suite 300, Cheyenne, Wyoming 82002. Communications impaired persons may contact the Commission through Wyoming Relay by dialing 711.

Dated July 25, 2025.

NOTICE OF PUBLIC MEETING

The South Thermopolis Water and Sewer District (STWSD) will conduct a public meeting at 12:00 pm, local time, on August 18, 2025, at the Hot Springs County Annex Building at 117 N. 4th St., Thermopolis, WY. The purpose of the meeting is to allow citizens to review and comment on the STWSD South Loop Project. This project improves capacity and redundancy on the South end of the STWSD system with installation of a new transmission main. The new line will run along Highway 20 connecting the existing STWSD line on the S. Yellowstone Road to the existing STWSD line near Rimrock Road.

At the meeting, STWSD and their consultant, DOWL will present the preliminary design of the proposed project and will discuss the estimated cost of the improvements and the plan for funding the improvements. A preliminary plan of improvements, cost estimates, and the funding plan can also be reviewed at DOWL, 1833 Sheridan Avenue, Sheridan, Wyoming 82401. Contact Jeffrey Rosenlund, P.E. DOWL at 307.655.7707.

Based on current cost estimates, the STWSD plans to borrow \$1,700,000 at a 0.0% interest rate for 30 years with \$1,146,837.00 principal forgiveness from the Wyoming Drinking Water State Revolving Loan Fund. The loan will be administered by the Wyoming Office of State Lands and Investments. Additional funding will be sought from the USDA Rural Development program, and it is anticipated that no increase in rates will be needed to support this project.

Written comments are also welcome. Send written comments to Jeffrey Rosenlund, P.E. DOWL, 1833 Sheridan Avenue, Sheridan, Wyoming 82401 by 4:00 p.m. on August 15, 2025
