

PUBLIC NOTICE

Pursuant to the Wyoming Administrative Procedure Act and the Wyoming Public Service Commission's (Commission) Rules and Regulations, notice is hereby given of the Application of Rocky Mountain Power (RMP or the Company) requesting authority to decrease rates, recover deferred Net Power Costs (NPC) under Tariff Schedule 95; and to increase rates under Tariff Schedule 93, Renewable Energy Credits (RECs) and Sulfur Dioxide (SO₂) emission allowances, as more fully described below:

1. RMP is a division of PacifiCorp, an Oregon corporation, engaged in the business of supplying electric utility service to customers throughout its six-state service territory, including Wyoming under certificates of public convenience and necessity issued by the Commission. RMP is a public utility subject to the Commission's jurisdiction. Wyo. Stat. §§ 37-1-101(a)(vi)(C) and 37-2-112.

2. On April 15, 2026, RMP filed an Application requesting authority to revise rates pursuant to two different rate schedules. The Company proposes to recover approximately \$25.8 million of deferred NPC and under Tariff Schedule 95, its Energy Cost Adjustment Mechanism (ECAM), over a 12 month period. The Company also proposes to recover approximately \$0.15 million from customers to reflect the Revenue Adjustment Mechanism (RRA) forecast and true-up of REC and SO₂ revenues under its Tariff Schedule 93. The Company requests interim approval of the proposed rates effective for usage on and after July 1, 2026, subject to further review.

3. RMP states the Schedule 95 deferred NPC is the result of: increased coal, wheeling, and other expenses; decreased wholesale sales revenues; and reduced purchase power and natural gas expenses. The following table summarizes the proposed price changes by tariff rate schedule. Within each rate schedule, the percentage change to individual customers may be higher or lower than the average due to rate design, customer load factors, and usage characteristics. The combined effect of the 2026 RRA and ECAM in this Application represents an overall proposed rate decrease of approximately \$51.1 million or 6.1 percent.

Residential	Combined Proposed Percentage Change (%)
Schedules 2, 19	(4.3)%
General Service	
Schedule 25	(4.6)%
Scheduled 28, 29	(5.5)%
Large General Service	
Schedule 33	(5.9)%
Schedule 46	(6.9)%
Schedule 48T	(7.5)%
Irrigation	
Schedule 40	(6.3)%
Lighting Schedules	
Schedule 15	(4.0)%
Schedule 51	(2.5)%
Schedule 54	(8.6)%
Schedule 58	(8.9)%
Overall	(6.0)%

4. This is not a complete description of the Application. You may review the Application at RMP's Wyoming offices and at the Commission's offices in Cheyenne, Wyoming, during regular business hours or online at <https://dms.wyo.gov/external/publicusers.aspx> (Enter Record No. 18114) or RMP's website at www.pacificcorp.com.

5. Anyone desiring to file a public comment, statement, protest, intervention petition, or request for a public hearing in this matter must file with the Commission in writing on or before May 20, 2026. Petitions shall set forth the grounds of the proposed intervention or request for hearing as well as the position and the interest of the petitioner in this proceeding.

6. If you wish to intervene in this matter and you require reasonable accommodation for a disability, please contact the Commission at (307) 777-7427, or write to the Commission at 2515 Warren Avenue, Suite 300, Cheyenne, Wyoming 82002, to make arrangements. Communications impaired persons may also contact the Commission by accessing Wyoming Relay at 711. Please mention Docket No. 20000-707-EM-26 in your communications.

Dated: April 22, 2026

Pub. April 30 & May 7, 2026 No. 2081

WYOMING DEPARTMENT OF TRANSPORTATION CHEYENNE, WYOMING NOTICE OF ACCEPTANCE OF AND FINAL SETTLEMENT FOR HIGHWAY WORK

Notice is hereby given that the Wyoming Department of Transportation has accepted as completed according to

plans, specifications and rules governing the same work performed under that certain contract between the State of Wyoming and **S & L Industrial LLC**, The Contractor, on Highway Project Number **B259015 in Albany, Campbell, Carbon, Converse, Crook, Fremont, Goshen, Hot Springs, Johnson, Laramie, Lincoln, Natrona, Park and Sweetwater Counties**, consisting of **rumble strips** and the Contractor is entitled to final settlement therefore; that the Director of the Department of Transportation will cause said Contractor to be paid the full amount due him under said contract on **June 3, 2026**

The date of the first publication of this Notice is **April 23, 2026**.

Pam Fredrick
Senior Budget Analyst
Budget Program
Wyoming Department of Transportation

Pub. April 23 & 30, 2026 No. 2076

PUBLIC NOTICE

Pursuant to the Wyoming Administrative Procedure Act and the Wyoming Public Service Commission's (Commission) Rules and Regulations, notice is hereby given of the Application of Rocky Mountain Power (RMP or the Company) for authority to sell certain Washington based assets (Washington Project or Project) and for approval of a deferred accounting order, as more fully described below.

1. RMP is a division of PacifiCorp, an Oregon corporation engaged in the business of supplying electric utility service to customers throughout its six-state service territory, including Wyoming under certificates of public convenience and necessity issued by the Commission. RMP is a public utility subject to the Commission's jurisdiction. Wyo. Stat. §§37-1-101(a)(vi)(C) and 37-2-112.

2. On April 3, 2026, the Company filed its Application, pursuant to Commission Rule Chapter 3, Section 21(f), for authority to sell its Washington based generation, distribution, and transmission assets, along with its Washington service area to Gem Sub LLC (Gem), a Washington affiliate of Portland General Electric Company (PGE) for \$1.9 billion. The Project includes three generation assets: the 477 Megawatt (MW) Chehalis turbine power plant, the 94 MW Goodnoe Hills Wind Farm, and the 234 MW Marengo I and II Wind Farms. Included transmission assets consist of 393 miles of transmission lines, 10 substations (two will be jointly owned), and approximately 6,220 structures. Included distribution assets consist of 4,100 miles of distribution lines, 34 substations, and approximately 100,480 poles.

3. RMP states selling the Project will aid the Company in managing risks associated with operating an expansive multi-state system, navigating discrete energy policies, and improving its financial position and credit rating to make the capital investments necessary for safe and reliable service. RMP anticipates an increase in system-wide capacity, and improved system load and resource balance because of the transaction. The Washington Project will sell approximately 2,730 square miles of service territory encompassing roughly 35 communities.

4. Gem intends to continue operations and using the resources in the same manner and will be assuming RMP's obligation to serve Washinton customers. Overall, the Project has 805 MW of generation capacity, a de minimis amount of PacifiCorp's overall 15,452 MW portfolio. Per the Application, the transaction will not increase rates for Wyoming customers and will not impact any other public utility. Completion of the transaction requires RMP, PGE, and Gem obtain all necessary state and federal regulatory approvals and meet all requirements.

5. RMP also requested approval of a deferred accounting order, pursuant to Wyoming Statute §§ 37-2-112 and 37-2-115, authorizing the Company to record a regulatory liability associated with the Wyoming allocated goodwill value from the Project, which RMP proposes funding via an annual rate credit of \$7.2 million to share with customers. If approved the rate credits will be recorded in Federal Energy Regulatory Commission Account 254.

6. This is not a complete description of the Application. You may review the Application at RMP's Wyoming offices or at the Commission's office in Cheyenne, or online at <https://dms.wyo.gov/external/publicusers.aspx> (Enter Record No. 18110).

7. Anyone desiring to file a public comment, statement, intervention petition, protest or request for a public hearing in this matter must file with the Commission in writing on or before May 13, 2026. Petitions shall set

forth the grounds of the proposed intervention or request for hearing as well as the position and the interest of the petitioner in this proceeding. Please mention Docket No. 20000-706-EA-26 in your communications.

8. If you wish to intervene in this matter and you require reasonable accommodation for a disability, please contact the Commission at (307) 777-7427, or write to the Commission at 2515 Warren Avenue, Suite 300, Cheyenne, Wyoming 82002. Communications impaired persons may contact the Commission by accessing Wyoming Relay at 711.

Dated: April 13, 2026.

Pub. April 23 & 30, 2026 No. 2075

Legal Notice

Sealed Bid Request

Hot Springs County School District No. 1 is seeking sealed bids for furnishing unleaded gasoline and dyed diesel fuels for the Joint Fuel Facility in Thermopolis per listed items and specifications. The specifications and other pertinent information may be obtained from the Business Office, 415 Springview, Thermopolis, Wyoming 82443, by contacting Levi Benboe, Transportation Director, 307-864-6600, or on the Business Office page of the district website: www.hot springs1.org

Please return one copy of the completed quote by 5:00 p.m., Friday, May 8, 2026, to:

Hot Springs County School District No. 1
Attn: Business Office
415 Springview
Thermopolis, WY 82443

Returned bids must be sealed and marked **"Fuel Bid"** on the outside of the envelope.

Hot Springs County School District No. 1 reserves the right to reject any or all bids and the right to waive any irregularities in the bids or bidding procedures. Awarding of the bid will take place at the regularly scheduled Board of Trustees meeting on May 21, 2026, at 6:30 pm in the Board Room, 415 Springview, Thermopolis, Wyoming 82443. A letter awarding the bid will be mailed to the successful bidder.

/s/ Jennifer Axtell
Chairman, Board of Trustees

Pub. April 30 & May 7, 2026 No. 2080

STATE OF) OFFICE OF THE
WYOMING) BOARD OF
) COUNTY
COUNTY OF) COMMISSIONERS
HOT SPRINGS) THERMOPOLIS, WY
) April 7, 2026

The Hot Springs County Board of Commissioners met in regular session on Tuesday, April 7, 2026 at 9:00 a.m. in the Public Meeting Room at the Government Annex. Present were Commissioners Bob Aguiar, Paul Galovich and Tom Ryan. Also present were County Clerk Becky Kersten, County Attorney Jill Logan, Assistant to the Commissioners Kim Lindseth, and Clerk Deputy Stefanie Ireland. Chairman Aguiar led those present in the Pledge of Allegiance.

Approval of Agenda- The Commissioners approved the agenda.

Approval of Minutes- The Commissioners approved the minutes from March 3, 2026 and March 16, 2026.

Approval of Accounts Payable Warrants Register- The Commissioners approved the AP warrant register for Warrants 68881 through 68981 totaling \$489,746.55 with payroll totaling \$211,758.04. Ratified with that motion warrant 68880 for \$18,835.94, which was for the prepayment of airport fuel on March 16, 2026. The Commissioners approved the February 2026 Revenue Expenditure Report.

Black Mountain Road Change Order No. 3- Dusty Spomer and Luke Provart from Ardurra presented a deductive change order of \$11,664.00 [Change Order No. 3] on the work done to clean up the old airport. Useful material was stockpiled to be re-used in the future. Ardurra did come in under their original estimate due to the number or equipment hours and with the change order, total savings were \$23,056.50. Commissioner Ryan asked about the final [road] grading and if that will come from the Business Council funds. Mr. Spomer replied that is the plan; all work related to reclaiming the used material, and dirt work that will be done for shaping and erosion control will be unclassified excavation and will be a work item for the coming Business Council project. The Commissioners approved the Black Mountain Road Change Order No. 3 for a deductive amount of \$11,664.

Road & Bridge Monthly Report- Road and Bridge Supervisor, Shane Rankin, reported the department had a busy month with the weather and

the plows were brought out for the first time this year. Blade work is continuing and two blades are currently down. Mr. Rankin spoke with John Deere who confirmed the blade parts are in and stated they should be up and running soon. Mr. Rankin stated the department has starting patching and are continuing with sign maintenance. They hauled manure for the fairgrounds and sand for the indoor arena. He indicated the Fairgrounds wants the department to remove some materials for them this summer. Mr. Rankin stated the department assisted the Wilson Brothers with the work at the old airport by providing a loader and end dump, which added another truck to the rotation and helped make the work more efficient. There was more material than originally thought and the contractor thought they may go over their price, but since Road & Bridge was able to free up a couple of workers, the work ended up being finished early which contributed to the savings in the BMR Change Order [No. 3].

Mr. Rankin presented a request for an Approach Agreement for Chase Mead on County Road 27W; the request was not for a new approach, but widening an existing field approach into a residential approach. The Commissioners approved the Approach Agreement.

Commissioner Galovich asked Mr. Rankin how expensive the repairs were on the blades. Mr. Rankin stated the costs to repair wasn't too bad as one was an electrical module in the FMR switch that shorted out and the other blade repair was a hydraulic pump. Commissioner Aguiar asked if the blades were taken in to be fixed and Mr. Rankin stated the County does not have a trailer big enough to haul them so the people from John Deere were coming here to fix them. Commissioner Galovich asked about the quality of the stockpile of material at the old airport. Mr. Rankin stated the material is good mixed pit run, some tailings, and some gravel. There was discussion that the material will remain at the old airport location and used in the future for development at that site or in other areas of the county as fill.

FBO Monthly Report- FBO Manager, Nate Messenger, reported there were 132 total recorded operations at the airport. Fuel sales included 686.45 gallons of Avgas and 1795.83 gallons of Jet fuel. Mr. Messenger reported he completed the Operators Annual Inspection on the fuel tank for the DEQ and replaced the filters in the Avgas self-serve system. He indicated that all fuel system and truck maintenance is taken care of. Mr. Messenger stated he will start getting the mowing equipment ready for the season.

Maintenance Monthly Report- Maintenance Supervisor, John Dorman, reported his department has some projects starting. Mr. Dorman has been speaking with Long Building Technologies about working on the condensing unit on top of the law enforcement building; that work should start in about a week. Mr. Dorman stated his department installed a new hot water heater at the library and Jadeco would install new charging ports in detention on April 9. While Jadeco is here, PyeBarker wants to talk to them about finishing some work on the fire detection system. Mr. Dorman has scheduled the 5-year sprinkler system inspection for the Museum.

Youth Alternatives Monthly Report- Youth Alternatives Director, Barbara Rice, reported Youth Alternatives currently has 5 juveniles, 3 males, and 2 females, and that 2 juveniles were released in March. Ms. Rice also provided the Commissioners with an update of Learning Center activities.

Public Health/Prevention Update- Public Health Nurse Manager, Shawn Mohr, reported that Public Health has seen an increase in rapid testing for flu, COVID, and strep. Mr. Mohr stated RSV and pertussis have been prevalent across the state and specifically in the surrounding counties. Mr. Mohr reported his department has been doing a lot of education classes for bystander CPR, BLS, and Heart Saver. Prevention is working on finishing the current grant cycle, including the upcoming Mental Health Matters event that will be held at the Broadway Bakery lot on May 6 from noon to 1:30pm. The event will have free tacos and mental health resources available. Mr. Mohr said his department is getting ready to share their graduation campaign with the community, which encourages a safe and sober graduation celebration. In addition, they have recently updated the community resource guide and will be printing 1,000 copies to be distributed throughout the community, with the goal to connect individuals and families to the available resources. The department will be meeting with the coalition to conduct a needs assessment on the needs of the community, with a focus on underage smoking and vaping.

Commissioner Aguiar mentioned the CDC has issued a warning on increased tick activity; he recommended that Public Health post information on how to properly handle tick bites. Commissioner Galovich suggested Public Health

Continued from Page 6

share the updated community resource guides with the law enforcement center.

Planner/Project Manager Update-Planner/Project Manager, Les Culliton, reported historical septic systems permitted by DEQ in the 70's, 80's, and 90's have now been entered into the Ardurra GIS system so they are now pinned. Mr. Culliton stated his department is working on cleaning up their database and have been receiving an influx of calls from out of state asking about building and subdividing [in Hot Springs County]. Since January 1, 10 septic permits to construct have gone out and there are another six applications that have been handed out, but not returned, with the majority being for single-family dwellings in the Red Rim Ranch area. Mr. Culliton reported the NRPC did not meet in March, but will meet in April. The Land Use Planning Commission used their March meeting as a work session and they discussed the Owl Creek Gravel production public hearing that took place in February with several members having questions. The annual gravel reports from the DEQ Land Quality Division were received. The DEQ requested the County's Storm Water Pollution Prevention Plan be redone; the current plan is a single document that included all gravel pits in the County and the request is to have a separate document for each individual gravel pit.

HSC Weed & Pest Update-District Supervisor Heather Love asked for approval of their second mill levy funding which will fund the white top and mosquito programs. Ms. Love reported in order to form a special management area; the Weed & Pest needed 51% of landowners in the area to sign up, which was achieved. Ms. Love reported her group was able to get 560 landowners to participate in the mosquito management zones and 625 landowners for white top management. If a landowner did not sign a consent form, they are still able to sign up and participate in those programs. Commissioners approved the HSC Weed & Pest Second Mill.

Ms. Love provided an update on the Red Canyon Fire Recovery Funds the County will receive. She applied for the Wyoming Wildlife Natural Resource Trust Fire Recovery funds allocated by the state in the last legislative session. The application was for \$8.9M and Ms. Love expects a signed agreement for the recovery effort soon. Approximately \$82,000 of these funds will go towards white top management since a large portion of the special management area burned. The rest of the funds will go towards other vegetation recovery. Commissioner Ryan asked if the funds were distributed over a two-year cycle and Ms. Love responded that it will be over three years and will depend on the weather and how the grass regrows with drought conditions. Commissioner Aguiar asked if the chemicals used for the mosquito management affects bees, Ms. Love stated that if the spray is applied correctly and is done at the proper time at night, the bees are not impacted and the Weed & Pest has a list of all registered beehives in the County and they do not spray in those areas.

County Clerk Becky Kersten / Miscellaneous County Items-County Clerk Becky Kersten asked for approval of a federally required website upgrade. Mrs. Kersten stated she had the County's IT person work with the County web designer to determine of the offered three tiers, what the best option was for the County; the first tier was sufficient for the County with a cost range of \$3,800 to \$5,200. Commissioners approved the upgrade.

Clerk Kersten asked for the Commissioner's approval on an insurance Final Proof of Loss for a 2019 Dodge Ram County pickup damaged after hitting an elk by Grass Creek two years ago. The vehicle is now fully fixed and operational so WARM will reimburse the County \$37,727.57. The Commissioners approved Commissioner Aguiar to sign the final proof of loss for the pickup.

Clerk Kersten's third item was asking for approval for the County to host its annual employee blood draw on April 17 and May 6. The blood draw allows employees to pay a smaller insurance premium in they participate in the blood draw. The Commissioners approved the 2026 Employee Wellness Blood Draw Contract.

Commissioners/USDA Interim Financing-Commissioner Ryan explained he delivered informational sheets to the four local banks in Thermopolis to see if they were interested in lending to the County for the construction phase of the new airport hangar and to inquire if they would accept the bonds required by the USA for collateral. All of the local banks responded; Big Horn Federal verbally declined. The Bank of Thermopolis had the lowest interest rate and no fees. Commissioner Ryan moved for the Bank of Thermopolis to be the County's lender for the interim financing, Commissioner Galovich seconded the motion, motion carried. Commissioner Ryan explained he had visited with Bart Langemeier, President of the Bank of Bridger (which The Bank of Thermopolis is a part of) and Mr. Langemeier stated he has worked on similar projects and has

worked with the same bond attorney out of Montana contracted with the County. Mr. Langemeier expressed strong approval of working with this bond attorney. Commissioner Galovich said he was impressed the Bank of Thermopolis was not charging an origination fee. Commissioner Ryan agreed and stated they were doing a great service to the community.

Connie Guntly/Grant Consultant-Connie Guntly gave grant updates. **Overlook at Roundtop - WBC Grant** - Ms. Guntly reported that Only Co. has been running the social media campaign for the past two months and will continue through the end of April. Once the marketing campaign is completed, Only Co. plans to present to the Commissioners a summary of the analytics regarding the campaign and outreach. To-date, Meri Ann Dorman has had nine people reach out. Ms. Guntly stated an Amendment would be drafted to expand the scope of work to include water and to extend the construction time frame. Ms. Guntly requested approval for Draw Down Request #5 for engineering services from October 2025 through January 2026.

Community Development Block Grant - Ms. Guntly discussed the Community Development Block Grant and reported that on March 10, the County received confirmation from the WCDA (Wyoming Community Development Authority) the environmental information had been reviewed and no significant impacts were noted. This information will need to be posted for 15 days to allow the public time to comment on the ERR (Environmental Review Record). The posting needed to be published no later than April 1. After the 15-day time period; the County can request to release funds to get the grant agreement. The WCDA requested the grant be signed by mid-April. Ms. Guntly discussed the publication and the ERR and asked for approval for Commissioner Aguiar's signature after the 15-day waiting period. She explained if comments are received, the ERR will need to be updated with the public comments, and a signature would need to be obtained at that time. Commissioners approved the Environmental Assessment Determinations and Compliance Findings for HUD Assisted Projects 24CFR Part 58 to be stamped with the Commissioner Chairman's signature stamp if no comments are received by April 15, if comments are received, the signature date would move to April 21. Ms. Guntly also asked for ratification for the publication being released on March 31. Clerk Kersten reminded the Commissioners due to the publication date requirement, they had already been contacted regarding the publication and they had given approval prior to the April 7 meeting. Commissioners approved the ratification of the public notice advertising. Ms. Guntly stated the agreement from WCDA should follow shortly after they receive the signature page. Once the agreement is signed, the County can start working on the grant, which includes a request for qualifications and selection of an engineer, and then going out for bid for a contractor.

Other Business

1. **Request to approve Black Mtn Rd SLIB MRG Grant Draft Request No. 5 (construction)** - Total \$521,994.41 (SLIB Reimburses \$193,137.93; WYDOT/County pays \$328,856.48) The Commissioners approved.

2. **Request to approve Black Mtn Rd WYDOT Grant Reimbursement No. 20 (construction)** - \$328,856.48 (WYDOT reimburses \$279,528.01; County pays \$49,328.47) The Commissioners approved.

3. **Request to approve Black Mtn Rd WYDOT Grant Reimbursement No. 21 (engineering)** - Total \$115,160.30 (WYDOT reimburses \$97,886.26; County pays \$17,274.05). The Commissioner Ryan moved to approve, Commissioners approved.

4. **Request to approve Black Mtn Rd SLIB MRG Grant Draft Request No. 6 (construction)** - Total \$124,093.03 (SLIB Reimburses \$45,914.42; WYDOT/County pays \$78,178.61. The Commissioners approved.

5. **Request to Approve Black Mtn Rd WYDOT Grant Reimbursement No. 22 (construction)** - \$78,178.61 (WYDOT reimburses \$66,451.82; County pays \$11,726.79). The Commissioners approved.

6. **Request to Approve Black Mtn Rd WYDOT Grant Reimbursement No. 23 (engineering)** - Total \$7,074.95 (WYDOT reimburses \$6,013.71; County pays \$1,061.24). The Commissioners approved.

7. **Request to approve Airport County Hangar RFR #6 (engineering)** - Total \$10,928.75 (FAA reimburses \$9,835.87; WYDOT reimburses \$655.73; County pays \$437.15). The Commissioners approved.

8. **Request to approve Wyoming Business Council Drawdown Request No 5 (engineering)** - Total \$29,478.00 (WBC reimburses \$25,056.00; County pays \$4,422.00). The Commissioners approved.

9. **Request to approve Airport 2025 NAVAID Maint RFR #1** - Total \$5,943.00 (WYDOT reimburses \$4,754.00; County pays \$1,189.00). The Commissioners approved.

Clerk Kersten stated as a reminder for the public, the portion of the Requests for Reimbursement that are paid by the County [for the Black Mtn Rd project] comes out of the State/County Road funds and not out of the County's General Fund.

10. **Request to accept or Deny Wyoming Department of Health Funding for Gambling Behavior** - The Commissioners accepted the funds from the Wyoming Department of Health for \$3,022.98 for the Prevention or Treatment of Problematic Gambling Behavior. Commissioner Ryan asked if the funds would be sent to Prevention. BOCC Admin Kim Lindseth responded yes, funds would be spent by Prevention Specialist Jennifer Cheney who is familiar with the restrictions and requirements of how the funds may be spent. Ms. Lindseth will be responsible for tracking the funds.

Executive Session - (Personnel) The Commissioners entered into executive session at 10:32 a.m. Present for the Executive Session were Commissioners Tom Ryan, Paul Galovich and Bob Aguiar. Also present were County Attorney Logan, County Clerk Kersten, Sheriff Kraushaar, and EMC Coordinator Sady Mounts. Commissioner Aguiar moved to exit Executive Session. with no action taken. The Commissioners approved the Public Health Readiness Coordinator go back to 40 hours per week and the County hire a part-time Emergency Manager effective July 1, 2026 under the jurisdiction of the Sheriff. Commissioner Ryan explained the Emergency Manger position was eliminated due to budget cuts last fiscal year and the current Public Health Readiness Coordinator was gracious enough to pick up that 10 hours per week and did a marvelous job, but it has now been realized that these two roles sometimes have conflicting duties and the responsibility of both roles need to be met separately during an emergency.
